000 BY NOVEMBER, 1,
SAYS RHINES

(By United Press)
St. Paul, Oct. 1.—The state is
"broke" again.

Worse than that, there is an over-
draft of \$140,903 in the state revenue
fund from which all departmental
and general expenses of the state
government are paid.

Still worse, the overdraft will
probably reach \$1,000,000 by No-

Rhines, state treasurer, and George
LaFond, state treasurer of his office.

There is a balance of \$10,370,436
in other funds of the state which is
being borrowed to make up the de-
ficiency.

Failure of mining companies to
pay the occupational tax is blamed
for the shortage of funds. This tax
is being again delayed as the mining
companies have asked hearings be-
fore the state tax commission.

STATE PARDON BOARD TO MEET ON OCTOBER 11

to familiarize himself with its work.

Samuel B. Wilson, newly appointed
chief justice of the state supreme

CLAIMS 100,000 MEN READY TO TAKE UP ARMS

TO CARRY OUT WALTON'S ORDER
THAT THERE SHALL BE NO
SPECIAL ELECTION

OKLAHOMA AFFAIRS CONTINUE
TENSE. POLLS TO BE PA-
TROLLED

(By United Press)
Oklahoma City, Oct. 1.—One
hundred thousand men, accord-
ing to Governor J. C. Walton's
calculation, are ready to take up
arms in Oklahoma today to gar-
ry out the executive's order that
there shall be no special election
in the state tomorrow.

At the election, officially called
and then banned by the governor
voters were to cast their ballots on
an initiative law to provide that the
legislature might convene itself with-
out an official summons from the ex-
ecutive.

Governor Walton declared his en-
emies, made by his militaristic fight
against the Ku Klux Klan, agitated
the proposed law.

George F. Short, state's attorney
general, W. C. McAllister, secretary
of the state election board and other
officials joined in saying the election
would be held, ordering ballots
printed and making other arrange-
ments to keep the polls open.

Short said "every voter should go
to the polls quietly and peaceably
to cast his ballot as his conscience
dictates."

Printing presses throughout the
state were rushing to turn out bal-
lots for the election. The governor
said his armed forces to prevent the
polls from opening included:

The entire Oklahoma national
guard of 4,000 men, now ordered
mobilized.

A volunteer army of 75,000 men.
The governor's special corps of
secret operatives.

The governor said that while the
militia would not be used to keep
the polls closed, it would be held in
readiness in case any rioting devel-
oped. His special police will be sta-
tioned at the doors of the polls.

INJUNCTION ISSUED AGAINST "ARMY"

Tulsa, Okla., Oct. 1.—An injunc-
tion prohibiting Governor Walton's
"army" from interfering with the
special election here tomorrow was
issued by State Judge Hunt today.
All forces, including the militia, spe-

Twelve of the governor's special
police were guarding lecture sup-
plies, and Sheriff Sanford said the
election would be held. Supplies will
be distributed before night, the sher-
iff said.

BELIEVE 'KING' PURNELL DEAD

SEARCH OF HOUSE OF DAVID
GROUNDS FAILS TO FIND
LEADER

(By United Press)
Benton Harbor, Mich., Oct. 1.—
Belief that "King" Benjamin Pur-
nell, leader of the House of David, is
dead was strengthened today, follow-
ing the unsuccessful raid yesterday
on the colony here.

More than 100 state troopers and
deputy sheriffs participated in the
hunt, which is extended to every
house in the colony and surround-
ing territory.

State officials are anxious to lo-
cate Purnell to have him appear be-
fore the one-man grand jury at St.
Joseph, Mich., tomorrow, when the
investigation of the affairs of the
colony is resumed.

FRENCH TROOPS ARE PATROLLING TEUTON FATAL RIOT AREA

(By United Press)
Berlin, Oct. 1.—French troops
were patrolling Dusseldorf today,
following yesterday's fatal riot-
ing in which many persons were
killed and wounded in fighting
between German police and a sepa-
ratist demonstration.

Dispatches from Dusseldorf to-
day placed the dead at 16, includ-
ing 12 separatists and four po-
lice.

The wounded were estimated at
from 50 to 100.

Order has been restored early
today. French troops marched
through the streets all night,
ready to put down any attempts
at disorders or gatherings.

The French arrested a number
of Germans charged with inciting
the riot, which started yesterday
afternoon when a huge gathering
of separatists, estimated as high
as 30,000, was holding a demon-
stration near the center of the
city, listening to speakers plead-
ing for establishment of a Rhen-
ish republic independent of the
German Reich.

The Reich cabinet was in ses-
sion late last night with Chan-
cellor Stresemann presiding to con-
sider the serious situation.

ARMY MOVES TO SUPPRESS OUTBREAK

Berlin, Oct. 1.—The army now is
moving to suppress a movement di-
rected against the Kuestrin fortress
near Frankfurt, an official state-
ment said today.

The government statement admit-
ted an extensive nationalist out-
break in which an organized group
attacked the fortress as the begin-
ning of a plan to seize military bases
throughout the Frankfurt area.

It was claimed, however, that gov-
ernment forces are in control of the
situation and that strong reinforce-
ments have routed several detach-
ments of nationalists.

DUAL PROBE INTO BUSINESS DEALS OF GOV. McCRAY

STARTED BY MARION COUNTY
GRAND JURY AND REPUB-
LICAN COMMITTEE

SPECIAL REFERENCE TO NOTES
OF GOVERNOR DISCOUNTED
AT VARIOUS BANKS

Indianapolis, Oct. 1.—A dual
probe into the business deals of
Governor Warren T. McCray with
special reference to notes
endorsed by the governor and
discounted at various banks
throughout the state was started
today by the Marion county
grand jury and the republican
state committee.

Gus Condo, attorney for the Mar-
ion National Bank, will appear be-
fore the grand jury with witnesses
to tell of alleged irregularities in
transactions the governor had with
the bank.

Sitting as an unofficial court of
inquiry, the republican state com-
mittee plans to go into every detail
of the governor's financial difficul-
ties. The purpose of the inquiry is
to fix the party's attitude toward the
governor. One faction wants Mc-
Cray to resign "for the good of the
party."

Members of the state committee
and party leaders from all over the
state are here.

New York, Oct. 1.—Muriel Mc-
Cormick, granddaughter of John D.
Rockefeller, arrived from abroad late
today and was met by her father,
Harold F. McCormick of Chicago.
All she had to say was that she most
certainly wasn't going into the
movies or grand opera.

LABOR SOUNDS ITS BATTLE CRY AT ITS PORTLAND MEETING

EXECUTIVE COUNCIL OF AMERI-
CAN FEDERATION OF LABOR
SUBMITS REPORT

CRUSADE FOR INDUSTRIAL DE-
MOCRACY IS PROCLAIMED AT
THE CONVENTION

(By United Press)
Portland, Ore., Oct. 1.—A call
to "all who have eyes to see" to
join the American Federation of
Labor in "a great crusade for
industrial democracy" was
sounded today by the federa-
tion's executive council in sub-
mitting its report to labor's an-
nual convention here.

"Henceforth the organization of the
workers must mean... enlightened
participation in a democracy of indus-
try whose purpose must be the exten-
sion of freedom, the enfranchisement
of the producer as such, the rescue of
industry from chaos, profiteering and
purely individual whim, and from the
domination of incompetent political
bodies," said the council.

"The threat of state invasion of in-
dustrial life is real. Such ignorant
encroachments as the Esch-Cummins
act, the Kansas Court of Industrial
Relations and the Colorado Industrial
Commission act, each a blundering
gesture of government acting under
the spur of organized propaganda or
of political appetite for power, are
examples of what industry has to fear.
Trade unionism must lead the way
for true progress, even at the cost of
being branded as reactionary."

"Industry must organize to govern
itself, to impose upon itself tasks and
rules and to bring order into its own
house. Industry must bring order to
itself constructively, or it will have an
order thrust upon it which would be
demoralizing, if not fatal. Our people
cannot live and thrive under the re-
gime of bureaucracy which threatens
unless industry solves its own prob-
lems. Industry must find itself. In-
dustry must save itself."

For the farmer
To the farmers of the country the
council suggested that "agriculture,
the great life-giving twin of industry,
must find its way through to order-
liness and justice by adoption of sub-
stantially the same means we advo-
cate for industry. It is our hope that
the farmers will continue their work
of organization and that we may have
and give assistance in pushing for-
ward the program upon which we be-
lieve depends our future national well
being and safety."

"We commit ourselves to greater
efforts in the organization of all
workers. We urge no new formula,
no new philosophy; we urge only a
great consciousness of purpose and a
definite aim towards its more rapid
accomplishment."

With this prelude, the council pro-
ceeded to a report and discussion of
the work of the past year, and to make
recommendations on several important
questions of labor policy. A digest of
these follows:

Child Labor

All local labor bodies were urged to
demand congressional adoption and
submission to the states of the pro-
posed amendment to enable anti-child
labor laws to be passed.

Supreme Court

The council repeated its advocacy,
indorsed by the 1922 convention, of
adoption of a constitutional amend-
ment providing that if the supreme
court nullifies a law of congress, it
shall remain a law if repassed by
two-thirds of both houses of congress.

Attacks on Unionism

A "propaganda of destructive criti-
cism" has been aimed at the trade
union movement, "frankly revolution-
ary and having for its ultimate object
not only destruction of trade union-
ism but the eventual overthrow of the

SPAIN MAY DEFY MONROE DOCTRINE

ATTEMPT AT FEDERATION WITH
SPANISH SPEAKING SOUTH
AMERICAN NATIONS HINTED

Madrid, Oct. 1.—Spain is seriously
preparing to challenge the Monroe
Doctrine. A bold project for a fed-
eration between Spain and the Span-
ish speaking republics of South Am-
erica has rapidly crystallized and
taken tangible form in the white
heat of Spain's rebirth, and nego-
tiations with South American for-
eign offices may have commenced al-
ready.

Senor Vasquez Domella, one of the
chief political spokesmen of the Cath-
olic church, asserts in an interview
passed by the censor.

"The real horizon of Spain lies
toward South America instead of to-
ward Morocco."

gist, will fill the position left vacant
in addition to his present work so
that there will be no new appoint-
ment. Cobb came to Minnesota game
and fish department from Massachu-
setts.

MARKETING SCHEME AT TAXPAYERS' EXPENSE

(By United Press)

Des Moines, Ia., Oct. 1.—Farm
measures passed by many grain pro-
ducing states during the past year
were assailed as "an attempt to or-
ganize a vast marketing scheme to
be financed this time by the govern-
ment with the taxpayers' money" by
F. E. Watkins, Cleveland, president
of the Grain Dealers National Asso-
ciation, in his annual address at the
convention here today.

Watkins declared the Standard
co-operative bill, the rural credits
act, and the modified warehouse act
"appeared to form a chain of
evidence"

lots for the election. The governor
said his armed forces to prevent the
polls from opening included:

The entire Oklahoma national
guard of 4,000 men, now ordered
mobilized.

A volunteer army of 75,000 men.
The governor's special corps of
secret operatives.

The governor said that while the
militia would not be used to keep
the polls closed, it would be held in
readiness in case any rioting de-
veloped. His special police will be sta-
tioned at the doors of the polls.

INJUNCTION ISSUED AGAINST "ARMY"

Tulsa, Okla., Oct. 1.—An injunc-
tion prohibiting Governor Walton's
"army" from interfering with the
special election here tomorrow was
issued by State Judge Hunt today.
All forces, including the militia, spe-
cial police and the citizens' volun-
teer army were included in the writ.

Twelve of the governor's special
police were guarding election sup-
plies, and Sheriff Sanford said the
election would be held. Supplies will
be distributed before night, the sher-

BELIEVE 'KING' PURNELL DEAD

SEARCH OF HOUSE OF DAVID
GROUNDS FAILS TO FIND
LEADER

(By United Press)
Benton Harbor, Mich., Oct. 1.—
Belief that "King" Benjamin Purnell,
leader of the House of David, is
dead was strengthened today, follow-
ing the unsuccessful raid yesterday
on the colony here.

More than 100 state troopers and
deputy sheriffs participated in the
hunt, which is extended to every
house in the colony and surround-
ing territory.

State officials are anxious to lo-
cate Purnell to have him appear be-
fore the one-man grand jury at St.
Joseph, Mich., tomorrow, when the
investigation of the affairs of the
colony is resumed.

FRENCH TROOPS ARE PATROLLING TEUTON FATAL RIOT AREA

(By United Press)
Berlin, Oct. 1.—French troops
were patrolling Düsseldorf today,
following yesterday's fatal riot-
ing in which many persons were
killed and wounded in fighting
between German police and a sepa-
ratist demonstration.

Dispatches from Düsseldorf to-
day placed the dead at 16, includ-
ing 12 separatists and four po-
lice.

The wounded were estimated at
from 50 to 100.

Order has been restored early
today. French troops marched
through the streets all night,
ready to put down any attempts
at disorders or gatherings.

The French arrested a number
of Germans charged with inciting
the riot, which started yesterday
afternoon when a huge gathering
of separatists, estimated as high
as 30,000, was holding a demon-
stration near the center of the
city, listening to speakers plead-
ing for establishment of a Rhen-
ish republic independent of the
German Reich.

The Reich cabinet was in ses-
sion late last night with Chancel-
lor Stresemann presiding to con-
sider the serious situation.

ARMY MOVES TO SUPPRESS OUTBREAK

Berlin, Oct. 1.—"The army now is
moving to suppress a movement di-
rected against the Kuestrin fortress
near Frankfurt," an official state-
ment said today.

The government statement admit-
ted an extensive nationalist out-
break in which an organized group
attacked the fortress as the begin-
ning of a plan to seize military bases
throughout the Frankfurt area.

It was claimed, however, that gov-
ernment forces are in control of the
situation and that strong reinforce-
ments have routed several detach-
ments of nationalists.

DUAL PROBE INTO BUSINESS DEALS OF GOV. MCCRAY

STARTED BY MARION COUNTY
GRAND JURY AND REPUB-
LICAN COMMITTEE

SPECIAL REFERENCE TO NOTES
OF GOVERNOR DISCOUNTED
AT VARIOUS BANKS

Indianapolis, Oct. 1.—A dual
probe into the business deals of
Governor Warren T. McCray with
special reference to notes
endorsed by the governor and
discounted at various banks
throughout the state was started
today by the Marion county
grand jury and the republican
state committee.

Gus Condo, attorney for the Mar-
ion National Bank, will appear be-
fore the grand jury with witnesses
to tell of alleged irregularities in
transactions the governor had with
the bank.

Sitting as an unofficial court of
inquiry, the Republican state com-
mittee plans to go into every detail
of the governor's financial difficul-
ties. The purpose of the inquiry is
to fix the party's attitude toward the
governor. One faction wants Mc-
Cray to resign "for the good of the
party."

Members of the state committee
and party leaders from all over the
state are here.

New York, Oct. 1.—Muriel Mc-
Cormick, granddaughter of John D.
Rockefeller, arrived from abroad late
today and was met by her father,
Harold F. McCormick of Chicago.
All she had to say was that she most
certainly wasn't going into the
movies or grand opera.

LABOR SOUNDS ITS BATTLE CRY AT ITS PORTLAND MEETING

EXECUTIVE COUNCIL OF AMERI-
CAN FEDERATION OF LABOR
SUBMITS REPORT

CRUSADE FOR INDUSTRIAL DE-
MOCRACY IS PROCLAIMED AT
THE CONVENTION

(By United Press)
Portland, Ore., Oct. 1.—A call
to "all who have eyes to see" to
join the American Federation of
Labor in "a great crusade for
industrial democracy" was
sounded today by the federa-
tion's executive council in sub-
mitting its report to labor's an-
nual convention here.

"Henceforth the organization of the
workers must mean . . . enlightened
participation in a democracy of indus-
try whose purpose must be the ex-
tension of freedom, the enfranchisement
of the producer as such, the rescue of
industry from chaos, profiteering and
purely individual whim, and from the
domination of incompetent political
bodies," said the council.

"The threat of state invasion of in-
dustrial life is real. Such ignorant
encroachments as the Esch-Chummins
act, the Kansas Court of Industrial
Relations and the Colorado Industrial
Commission act, each a blundering
gesture of government acting under
the spur of organized propaganda or
of political appetite for power, are
examples of what industry has to fear.
Trade unionism must lead the way
for true progress, even at the cost of
being branded as reactionary."

"Industry must organize to govern
itself, to impose upon itself tasks and
rules and to bring order into its own
house. Industry must bring order to
itself constructively, or it will have an
order thrust upon it which would be
demoralizing, if not fatal. Our people
cannot live and thrive under the re-
gime of bureaucracy which threatens
unless industry solves its own prob-
lems. Industry must find itself. In-
dustry must save itself."

For the Farmer

To the farmers of the country the
council suggested that "agriculture,
the great life-giving twin of industry,
must find its way through to order-
liness and justice by adoption of sub-
stantially the same means we advo-
cate for industry. It is our hope that
the farmers will continue their work
of organization and that we may have
and give assistance in pushing for-
ward the program upon which we be-
lieve depends our future national well
being and safety."

"We commit ourselves to greater
efforts in the organization of all
workers. We urge no new formula,
no new philosophy; we urge only a
great consciousness of purpose and a
definite air towards its more rapid
accomplishment."

With this prelude, the council pro-
ceeded to a report and discussion of
the work of the past year, and to make
recommendations on several important
questions of labor policy. A digest of
these follows:

Child Labor

All local labor bodies were urged to
demand congressional adoption and
submission to the states of the pro-
posed amendment to enable anti-child
labor laws to be passed.

Supreme Court

The council repeated its advocacy,
indorsed by the 1922 convention, of
adoption of a constitutional amend-
ment providing that if the supreme
court nullifies a law of congress, it
shall remain a law if repassed by
two-thirds of both houses of congress.

Attacks on Unionism

A "propaganda of destructive criti-
cism" has been aimed at the trade
union movement, "frankly revolution-
ary and having for its ultimate object
not only destruction of trade union-
ism but the eventual overthrow of the
country."

IMPERIAL CONFERENCE OF PREMIERS OF THE BRITISH DOMINIONS

(By United Press)
London, Oct. 1.—The imperial

today to discuss important prob-
lems, including the British atti-

governing unit of the empire.

SPAIN MAY DEFY MONROE DOCTRINE

ATTEMPT AT FEDERATION WITH
SPANISH SPEAKING SOUTH
AMERICAN NATIONS HINTED

Madrid, Oct. 1.—Spain is seriously
preparing to challenge the Monroe
Doctrine. A bold project for a fed-
eration between Spain and the Span-
ish speaking republics of South
America has rapidly crystallized and
taken tangible form in the white
heat of Spain's rebirth, and negoti-
ations with South American for-
eign offices may have commenced al-
ready.

Senor Vasquez Domella, one of the
chief political spokesmen of the Cath-
olic church, asserts in an interview
passed by the censor.

"The real horizon of Spain lies
toward South America instead of to-
ward Morocco."

DRIVE ON TO UNIONIZE THE STEEL WORKERS

(By United Press)

Portland, Ore., Oct. 1.—A cam-
paign fund of \$1,000,000 will be

steel industry of America, Secretary
William Hannon of the executive
council of the national and inter-

said.

EBEN W. COBB RESIGNS AS SUPT. OF FISHERIES

(By United Press)
St. Paul, Oct. 1.—Eben W. Cobb,
for 15 years state superintendent of
fisheries, resigned today.

The announcement was made by
Jay Gould, new game and fish com-
missioner. Cobb has accepted a po-
sition with the Connecticut game
and fish department, he said, at a
salary much more than Minnesota
pays.

T. Surber, who has been with the
department for seven years as biolo-
gist, will fill the position left vacant
in addition to his present work so
that there will be no new appoint-
ment. Cobb came to Minnesota game
and fish department from Massachu-
setts.

MARKETING SCHEME AT TAXPAYERS' EXPENSE

(By United Press)
Des Moines, Ia., Oct. 1.—Farm
measures passed by many grain pro-
ducing states during the past year
were assailed as "an attempt to or-
ganize a vast marketing scheme to
be financed this time by the govern-
ment with the taxpayers' money" by
F. E. Watkins, Cleveland, president
of the Grain Dealers National Asso-
ciation, in his annual address at the
convention here today.

Watkins declared the Standard
co-operative bill, the rural credits
act, and the modified warehouse act
"appeared to form a chain of evidence

SMOKER BURIED IN QUICKSAND

ILL-FATED CAR OF BURLINGTON
WRECK HAS NOT BEEN
RECOVERED

(By United Press)

Casper, Wyo., Oct. 1.—One car, the
smoker of Burlington passenger
train No. 30, which plunged into
the flooded Cole Creek Thursday
night, still remains beneath the
quicksand of the creek.

With the other 4 cars above wa-
ter and sand, rescue workers have
failed to add to the five bodies which
had been recovered early Saturday.

Only one bit of wreckage rests on
the smoker, which is believed to
contain most of the bodies of those
drowned, and workmen hope to have
this car lifted sufficiently to reach
them before the end of the day.

KIDNEY TROUBLE

Kidney disease is one of the most insidious and dangerous. Dangerous because its presence is very often not even suspected until it has attained a firm hold. If the kidneys function normally, all is well, as the proper functioning of these organs is essential to the maintenance of health in the whole body.

Let your chiropractor relieve the Nerve Pressure by giving you *Chiropractic Vertebral Adjustments*. The kidneys will then function normally and the result will be health.

Consultation, spinal analysis and booklets free. House and country calls made, day or night.

KIDNEY TROUBLE

Kidney disease is one of the most insidious and dangerous. Dangerous because its presence is very often not even suspected until it has attained a firm hold. If the kidneys function normally, all is well, as the proper functioning of these organs is essential to the maintenance of health in the whole body.

Let your *chiropractor* relieve the Nerve Pressure by giving you *Chiropractic Vertebral Adjustments*. The kidneys will then function normally and the result will be health.

Consultation, spinal analysis and booklets free. House and country calls made, day or night.

SINGER HERE SUNDAY, OCT. 14

Riccardo Martin to Give Recital Under Auspices Brainerd Musical Club

Riccardo Martin, who comes to Brainerd Sunday, October 14th, is under the management of Harry and Arthur Culbertson, of Chicago, who have furnished the Brainerd Musical club with talent for their artists' recitals for a number of years.

Harry Culbertson was here during the summer and in a conversation with Mrs. T. E. Jones, librarian and also secretary of the clubs. Mr. Culbertson spoke of the pride he took in offering Riccardo Martin to Brainerd audiences. And of Hubert Carlin, the accompanist, he said: "His playing is superb! He was always a wonderfully fine pianist, but his playing has improved marvelously since he was last heard in Brainerd." Mr. Carlin was accompanist for the violinist, Isador Berger, when he appeared in Brainerd a few years ago.

The press notes regarding Riccardo Martin's work give evidence that he is a singularly impressive singer. One critic in writing of him said, "He has a robust voice with a rich baritone quality to it. It is under cultured control and has warmth as well as breadth. His enunciation could not be surpassed in his French, English or Italian songs, and his well chosen program emphasized his grace of technique and sympathetic style." All in all, it would seem that the music lovers of Brainerd have in store for them a rare treat in the coming recital.

Terrific Current Washes Entire Village Away in Fox Special Photoplay at Lyceum

A few feet of film shown on the screen often represents a great amount of labor and personal risk to the actors in the scene. This is

evident in the flood scene of the new William Fox special production, "The Town That Forgot God," which opened at the Lyceum yesterday, and is showing for the last time tonight. This scene, made in New Jersey, was very difficult to obtain—especially the views which showed human beings being washed along with the wreckage of the buildings in a small village.

A score of cameramen were used in making the scenes of this portion of the flood, but in the finished production the audience sees but a flash now and then of the struggling people. The expert swimmers doubled for the citizens of the town that was being wrecked. The flood scene is the most realistic of its kind ever shown on the screen.

Tremendous Scenes in Fairbanks Movie

When Douglas Fairbanks began his great new production, "Douglas Fairbanks in Robin Hood," his latest photoplay for United Artists release, and which will be shown at the New Park tonight, Tuesday, Wednesday and Thursday, the first scene shot was an interior, and Paul Dickey, playing Sir Guy of Gisbourne, the villain, killed a man nine times. It all happened in Richard Couver de Lion's tent, on the road to the Holy-land with the Third Crusade.

CHICAGO'S BEER FLOW HAS BARE KICK LEFT

Chicago, Oct. 1—Chicago's "beer fountain" was spouting but feebly. Mayor William E. Dever, directing a vigorous fight against saloons following the fatal "beer war," has during the week revoked the licenses and locked the doors of nearly 400 saloons, coffee houses and soft drink parlors where prohibition was regarded as a joke. Six men were killed in a war between alleged rival "beer syndicates." Twenty-two hundred arrests have been made in the last two weeks, according to Morgan A. Collins, chief of police.

BRAINERD'S TRAGIC WEEK

IN reviewing the last week in September, which brought tragedy into the life of Brainerd, darkening homes and robbing the community of strong men, even the man in the street is inclined to be didactic. The last week in September caused men to think and to think seriously about the meaning of life, and men who are not teachers or preachers expressed themselves freely upon matters that are related to life's mysterious order.

The expressions of sympathy that were voiced by human lips and revealed in floral offerings proved that Brainerd is not too big to enter into the sorrows and griefs of families who suffer loss and that Brainerd is not too small to see things in a large and noble way. The littleness of Main street was wiped out in a common sympathy and, irrespective of creed or viewpoint, men joined together in their expressions of a common grief.

We would be no more didactic than the man in the street has been during the past few days if we pointed out some of the things that have been passing through the minds of the citizens of Brainerd. They have been led to think of the attitudes of men to life and to life's activities. They have thought of the expressions of life, as life should be expressed, if, when the end comes, there is to be satisfaction resulting from the knowledge that life has been worthily lived. Perhaps, in these days, men are sometimes mistaken in looking to the circumference of life and neglecting the center, for it must be true that the circumference cannot be right if the center is wrong. A man's first duty is to his home, his second to his community, his third to his state, his fourth to his nation and, after these interests have been served, the larger world may be considered. Of course, if the more local values are to be conserved, the larger and wider relationships must be considered. The home is affected by the life of the community, the community by the state and the state by the nation, but while this is true, uniformly good homes will make a good community and uniformly good communities will determine that the state will be a good state.

Brainerd is heeding the lessons that were enforced by the happenings of recent date. It is impressed with the idea that the littleness of Main street and the pettiness of the small community need not mar its life, for it is large enough to overcome these and at the same time the city is small enough to share in the intimate affairs of individuals so that the community interests are neighborly interests and the neighborly spirit need not be buried under the burden of community interests.

Better towns than Brainerd would be hard to find, but Brainerd can be a still better town, and it will be when the spirit of comradeship and kindness that is aroused in times of emergency becomes more characteristic of its every day life.

CONSISTENT IMPROVEMENTS

VARIOUS organizations in Brainerd are expressing their views as to what may be done to improve Brainerd and to make it a more beautiful city. Many of the proposals are practical, some of which may be realized at an early date, while others which involve considerable expense, will have to be postponed until the citizens of Brainerd are ready to authorize the expenditures demanded by the very desirable but costly projects.

Some of the things that have been mentioned can be done at any time and the work and expense entailed would not be great, and yet they are not done. Merely to cite what needs doing and to say how it may be done and to show that the doing of it is not a matter of difficulty does not do the job, even though it might be done without much expenditure of effort. What is needed is the attack, not in the form of criticism of defects or in the way of pointing out improvements, for such an attack may end where it begins with nothing accomplished. Its value, even for the purpose of stirring public opinion may be questioned because public opinion stirred one month may be stilled the next and the same things must be said over again to get sentiment aroused to the warmth it registered a month or months before. The attack must be an attack on the thing itself through an effort to remove it or improve it.

There are organizations in Brainerd for this purpose. They are doing good work but they can do better work. As they become better grounded they will grow into organizations that put across the things they outline in their meetings. Much has been accomplished by these and as they work together more heartily much more will be done. Brainerd has developed wonderfully during the past five years and it will improve more in the next five.

One of the recent improvements initiated by the city council and achieved by its committee on streets is seen in the many improvements that have been made through grading the streets in various parts of the city. This work is not yet done but when it is completed and the rains settle the surface and they are scraped into shape the citizens of Brainerd will appreciate the activities of the members of this committee.

Brainerd adopted the slogan "A bigger and better Brainerd." The citizens who are public-spirited have not forgotten it and they are making efforts to see it expressed in the city. If it is made better it will just naturally get bigger. The quality of the article adds to the volume of the sales. A better Brainerd will sell the city to more and more people.

democratic government of the United States," the council said. The catchword of this propaganda has been "amalgamation," it was stated, referring to those who favor "one big union."

Immigration

"Congress will be called upon to decide between the greed of unfair employers and the self-preservation of our people," in dealing with the immigration problem, the report said, pointing out "the danger to our institutions if immigration is not restricted to a greater extent than is provided in the present law." The convention was urged to go on record in favor of much stricter limitation, even for complete prohibition of immigration for a time. Commenting on the demand for an Americanization program, the council said:

"No better time could a campaign to this end be launched than at present, and its success would be made more certain by the complete restriction of immigration."

Unemployment

The council recommended that the A. F. of L. participate heartily in all efforts being made in a time of prosperity like the present to prepare against an unemployment period. All wage earners were urged to send to headquarters their best thought and suggestion on means of preventing unemployment.

"In addition we have no hesitancy in emphasizing the fact," said the council, "that the most potential factor against unemployment is the resistance against wage reductions."

Banking and Credits

Emphasizing the importance of credit in the industrial life of the nation, the council reported adversely on the plan to establish a central labor bank in Washington, D. C., to co-ordinate the activities of labor banks throughout the country. It pointed out that the twenty-three labor banks now in business or about to start are organized on different plans and that it would be impossible to bring them together in a unit. The central bank project is, therefore, "not only impracticable, but undesirable," the council said.

Non-Partisan Political Campaign

Pointing to the fact that "through the activities of the A. F. of L. Non-Partisan Campaign Committee twenty-three candidates for United States Senator who had been loyal to labor and the people were elected, and eleven reactionary Senators defeated, and the 170 House members were elected, either because the A. F. of L. supported them or opposed their rivals," the council advocated that the convention provide more funds for similar activities in the 1924 campaign so that "a most thorough campaign can be inaugurated and carried to a successful conclusion."

Kansas Industrial Court

"Kansas once again is heading toward freedom" as the result of the supreme's court's decision "dismembering" the Industrial Court, the council said. In view of the decision "the only purpose now being served by the remnants of ex-Governor Allen's law is to provide jobs for his political appointees on this court and to squander the money of the taxpayers of Kansas." Governor Davis was commended for his efforts to abrogate the law entirely.

Open Shop

The so-called "American plan" or open shop was condemned as an effort to put workers into slavery, and the council declared that "the successful strikes of nearly 2,000,000 wage-earners in the United States are responsible for the prosperity this country is enjoying, since these strikes were adjusted by collective bargaining."

Ku Klux Klan

The Klan was condemned on the ground that "it is destructive of that freedom and devotion to the principles of liberty which we regard as the first essentials in democratic civilization. We believe that no trade unionist can consistently participate in the activities of the Ku Klux Klan or any similar organization, and we unhesitatingly denounce its efforts to supplant ordered government, to promote religious intolerance, racial antagonisms and bigotry."

Fascist Movement

The effort to organize fascist groups in the United States was denounced as "a token of hostility to our democratic institutions." Foreign-born workers were urged to "refrain from joining the fascist or any similar movement."

Railroads and the Courts

An exhaustive review of the shopmen's strike and the Wilkerson injunction was made. The council declared the injunction "marked a new advance of the courts of equity in their usurpation of power to control

industrial controversies," which may provide "a tyrannical precedent in other cases."

The Railroad Labor Board and the Esch-Cummins act were roundly condemned and their abrogation urged.

Minimum Wage Law

Nullification of the District of Columbia minimum wage law for women should stimulate the organization of women, not alone for their own protection, but also for protection of men wage earners, the council said.

Congress

In a comprehensive review of the work of the Sixty-seventh Congress the council declared it "will find an unenviable place in history. Reaction and incompetence, backed apparently by no other thought than personal and partisan political advantage, made it impotent to remedy any of the evils troubling the people of our country."

One of the greatest dangers to the country, the report said, is legislation by "lame ducks," or defeated members of Congress.

MUNICIPAL COURT HAS BIG DOCKET

Jenkins Man Pleads Guilty to Driving Car While Intoxicated

THREATENED THE CONSTABLE
Further Developments in Cases Charging Furnishing of Liquor to a Minor

In municipal court Monday morning, George Burchet of Jenkins pleaded guilty to driving an automobile while intoxicated and was fined \$75 and \$11.50 costs or 60 days in jail.

Burchet, with two companions were driving around Jenkins on Sunday afternoon, it was brought out in court, and threatened the village constable when he asked them to go home. The constable then called the sheriff's office, and the officers went to Jenkins and took Burchet into custody.

In the state cases of Lawrence Marshall and Glenroy Snell, charged with furnishing liquor to a minor, the state moved for dismissal, which was granted. These defendants were to have had their preliminary examinations on Monday morning.

Two similar charges were taken against Ercell Kohlhaas one charging him with furnishing liquor to a minor on September 2nd, the other September 4th.

Judge J. H. Warner bound Kohlhaas over to the district court on the testimony presented by the 14-year old girl to whom the liquor is alleged to have been given. The bond in this case was set at \$500.

On the second charge, in furnishing liquor to a minor on September 4th, the circumstances were very similar, and Kohlhaas was bound over to the district court, bonds being set at \$500.

On Monday afternoon, George Swanson, charged with the sale of liquor was given a preliminary hearing and bound over to the district court, bonds set at \$500. Swanson will also be given a second examination on another charge of selling liquor, as will Frank Gunion, whose real name is Frank Ascher.

AUTOMOBILE CASE

Collision in Which Brainerd Man Was Victim Is Still Unsettled

Carl W. Anderson, proprietor of the Brainerd Office Supply Co., returned last week from Minneapolis, with his Chevrolet coupe which was wrecked in an automobile accident at Olivia last July.

The outcome of this collision is still hanging fire as the other party to the accident, a wealthy farmer, McGinty by name, still refuses to stand the expense of repairing Mr. Anderson's car.

It is understood that liability insurance is carried by the Olivia man, and that the insurance company is willing to pay the costs of the repairs to the Anderson car if Mr. McGinty will admit responsibility for the accident.

The people of Olivia proved themselves real friends to Mr. Anderson at the time of his accident, giving him every assistance possible, and making him feel that he was not in a land of strangers. The services of an attorney were also offered at that time.

The collision occurred several miles out of Olivia, as Mr. Anderson was returning from Tracy, Minnesota. McGinty, it is said, drove out on the highway from a private road through a cornfield, which hid the car until it was upon the Chevrolet, leaving no opportunity for getting out of its path.

The incident has caused Mr. Anderson a great deal of trouble and loss of time, as he has been forced to make a number of trips to Olivia and Minneapolis.

MARL TO BE GIVEN AWAY

Dr. F. J. Alway of the Soils Division has sent a letter to county agent, E. G. Roth, stating that marl for experimental purposes will be given to any of the farmers adjacent to the Koering field and Murray field to be used only for alfalfa and sweet clover—not more than 8 cubic yards are to go to any one man and this is not to be applied to more than 2 acres. There is up to 450 tons available. Farmers wanting same should make application to county agent Roth or to the owner of the field. All fields upon which it is used must be adjacent to some public highway.

2 WEEK END ACCIDENTS

Fords Participate in Collisions on Gull Lake Road and in Brainerd

Two week-end automobile accidents are reported. One occurred on the Gull lake road several miles out of Brainerd at about one o'clock Sunday morning, when M. A. Ollarainen and Lee King collided. Both were driving Ford touring cars. The front end of both cars were badly damaged, it is said.

B. Birdsall, living on Route 5 and Frank Norton of 624 North Tenth street collided at the intersection of Kingwood and North Fifth streets about five o'clock Saturday afternoon. Both cars were Fords and were quite badly damaged.

Jordan-Courtney (Contributed)

A wedding of interest which took place this afternoon at the residence of Dr. Walter Courtney, was that of his only daughter, Miss Hildegard and Raymond Sydney Jordan, of Chicago, son of Mr. and Mrs. Lewis Henry Jordan of Winnipeg, Manitoba.

The ceremony took place in the living room before an improvised altar of ferns and autumnal foliage. Miss Alice Johnstone softly played violin selections during the afternoon.

The bride, who was given in marriage by her father, was radiant in an imported gown of ivory chiffon, elaborately embroidered in crystal beads in pastel shades, a bandeau of cloth of silver completed her costume. She carried a colonial bouquet of butterfly roses, lilies of the valley and bouvardia.

Following the ceremony, refreshments were served, the bride's table being centered with a lovely fountain of roses, larkspur and baby breath. The bride's cake surrounded with smilax and variegated flowers was arranged on a buffet.

After the usual toasts, the bride retired to don her traveling costume, a three-piece model of midnight blue marvelline, the coat showing collar and cuffs of grey squirrel, the frock a smart combination of midnight blue marvelline and grey canton crepe. With this she wore a hat of pompeian red taffeta.

Mr. and Mrs. Jordan left by motor for a trip to the northern lakes, and will be at home after October fifteenth at Shorecrest, Chicago.

The bride is very well known in Brainerd, her native city. She attended the schools here and abroad, also in St. Paul and Columbia university, New York City.

The groom is a graduate in architecture of the University of Manitoba, and is now engaged in his profession in Chicago.

Out-of-town guests included Mr. and Mrs. Lewis H. Jordan, Miss Frances Jordan, of Winnipeg, Mr. and Mrs. J. C. MacNair, Cloquet, Mr. and Mrs. W. A. Laidlaw, Miss Florence Fischleigh, St. Paul, Dr. and Mrs. G. D. Head, Minneapolis, Leon E. Lum, Duluth, Dr. and Mrs. R. D. Campbell, Grand Forks, N. D., Dr. and Mrs. J. P. Aylem, Fargo, N. D.

REV. E. A. COOKE IS RE-APPOINTED

Again Given Charge of Brainerd First Methodist Church by Recent Conference

CONGREGATION IS PLEASED

Rev. Cooke Has Been Popular With His Own Church People and Those Outside of Church

The Methodist Episcopal annual conference which convened in Minneapolis last Tuesday adjourned last night with the reading of the appointments for the conference year.

Of interest to Brainerd is the re-appointment of Rev. E. A. Cooke to the local church for another year. Several weeks before the close of the year Rev. Cooke had announced to his congregation that he felt that he had given his best to the local work and thought that the interest of the local church would best be served by his asking for a change.

The members of the church thought differently and they asked for his return which he agreed to and the conference reappointed him to the local work.

Rev. Cooke has been quite popular, not only with his own church people but with those outside of the church. He is greatly interested in local affairs. His effort to maintain the Good Will industry has meant much for those whose finances makes it difficult to secure needed clothing. As a speaker he is very broad minded yet holding to the real fundamental of the gospel he preaches.

Mr. and Mrs. Cooke expect to visit her home in Southern Minnesota returning to Brainerd about Thursday.

Will Answer Via Radio

Radio enthusiasts interested in good roads are urged to mail inquiries at once and remember the broadcasting date—6 p. m. Thursday, Oct. 11.

MUNICIPAL COURT HAS BIG DOCKET

Jenkins Man Pleads Guilty to Driving Car While Intoxicated

THREATENED THE CONSTABLE
Further Developments in Cases Charging Furnishing of Liquor to a Minor

In municipal court Monday morning, George Burchet of Jenkins pleaded guilty to driving an automobile while intoxicated and was fined \$75 and \$11.50 costs or 60 days in jail.

Burchet, with two companions were driving around Jenkins on Sunday afternoon. It was brought out in court, and threatened the village constable when he asked them to go home. The constable then called the sheriff's office, and the officers went to Jenkins and took Burchet into custody.

In the state cases of Lawrence Marshall and Glenroy Snell, charged with furnishing liquor to a minor, the state moved for dismissal, which was granted. These defendants were to have had their preliminary examinations on Monday morning.

Two similar charges were taken up against Ernell Kohlhaas one charging him with furnishing liquor to a minor on September 2nd, the other September 4th.

Judge J. H. Warner bound Kohlhaas over to the district court on the testimony presented by the 14-year old girl to whom the liquor is alleged to have been given. The bond in this case was set at \$500.

On the second charge, in furnishing liquor to a minor on September 4th, the circumstances were very similar, and Kohlhaas was bound over to the district court, bonds being set at \$500.

On Monday afternoon, George Swanson, charged with the sale of liquor was given a preliminary hearing and bound over to the district court, bonds set at \$500. Swanson will also be given a second examination on another charge of selling liquor, as will Frank Gunion, whose real name is Frank Ascher.

AUTOMOBILE CASE

Collision in Which Brainerd Man Was Victim Is Still Unsettled

Carl W. Anderson, proprietor of the Brainerd Office Supply Co., returned last week from Minneapolis, with his Chevrolet coupe which was wrecked in an automobile accident at Olivia last July.

The outcome of this collision is still hanging fire as the other party to the accident, a wealthy farmer, McGinty by name, still refuses to stand the expense of repairing Mr. Anderson's car.

It is understood that liability insurance is carried by the Olivia man, and that the insurance company is willing to pay the costs of the repairs to the Anderson car if Mr. McGinty will admit responsibility for the accident.

The people of Olivia proved themselves real friends to Mr. Anderson at the time of his accident, giving him every assistance possible, and making him feel that he was not in a land of strangers. The services of an attorney were also offered at that time.

The collision occurred several miles out of Olivia, as Mr. Anderson was returning from Tracy, Minnesota. McGinty, it is said, drove out on the highway from a private road through a cornfield, which hid the car until it was upon the Chevrolet, leaving no opportunity for getting out of its path.

The incident has caused Mr. Anderson a great deal of trouble and loss of time, as he has been forced to make a number of trips to Olivia and Minneapolis.

MARL TO BE GIVEN AWAY

Dr. F. J. Alway of the Soils Division has sent a letter to county agent, E. G. Roth, stating that marl for experimental purposes will be given to any of the farmers adjacent to the Koering field and Murray field to be used only for alfalfa and sweet clover—not more than 8 cubic yards are to go to any one man and this is not to be applied to more than 2 acres. There is up to 450 tons available. Farmers wanting same should make application to county agent Roth or to the owner of the field. All fields upon which it is used must be adjacent to some public highway.

2 WEEK END ACCIDENTS

Fords Participate in Collisions on Gull Lake Road and in Brainerd

Two week-end automobile accidents are reported. One occurred on the Gull lake road several miles out of Brainerd at about one o'clock Sunday morning, when M. A. Ollarainen and Lee King collided. Both were driving Ford touring cars. The front end of both cars were badly damaged, it is said.

B. Birdsall, living on Route 5 and Frank Norton of 624 North Tenth street collided at the intersection of Kingwood and North Fifth streets about five o'clock Saturday afternoon. Both cars were Fords and were quite badly damaged.

Jordan-Courtney

(Contributed)

A wedding of interest which took place this afternoon at the residence of Dr. Walter Courtney, was that of his only daughter, Miss Hildegard and Raymond Sydney Jordan, of Chicago, son of Mr. and Mrs. Lewis Henry Jordan of Winnipeg, Manitoba. The ceremony took place in the living room before an improvised altar of ferns and autumnal foliage. Miss Alice Johnstone softly played violin selections during the afternoon.

The bride, who was given in marriage by her father, was radiant in an imported gown of ivory chiffon, elaborately embroidered in crystal beads in pastel shades, a bandeau of cloth of silver completed her costume. She carried a colonial bouquet of butterfly roses, lilies of the valley and bouvardia.

Following the ceremony, refreshments were served, the bride's table being centered with a lovely fountain of roses, larkspur and baby breath. The bride's cake surrounded with smilax and variegated flowers was arranged on a buffet.

FARRELL TELLS WHY DEMPSEY SLUGGED

By HENRY L. FARRELL
United Press Sports Editor

New York, Oct. 1.—For years to come, no doubt, the thrilling victory of Jack Dempsey over Luis Firpo in less than two rounds will remain one of the most interesting topics in boxing discussions.

Perhaps it will be related to the next generation how the great Jack Dempsey took the wildest of all chances and went out to out-slug and out-punch one of the hardest hitters of all times.

Dempsey perhaps will be given credit for super-courage in setting aside more effective methods of scientific fighting to prove his greatness by beating a most dangerous opponent at his own game.

Experts are still figuring why Dempsey fought so strangely, so carelessly and so dangerously when the logical thing for him to have done was to box with Firpo and cut him down by the more modern method of scientific hitting.

Dempsey went out to slug with Firpo in the first round, and he was mighty near knocked out from under his title. He was floored twice, knocked out of the ring once and beaten all around the ring in the first round. He was hit seven straight times with a right hand and later was landed on fifteen times with swings, without making a counter punch, but nevertheless he floored his opponent seven times.

In the second round he went out and fought as he was expected to fight in the first round. He boxed Firpo, feinted him into knots and knocked him out without having the Argentine touch him with a glove.

For several reasons, Dempsey had to fight the way he did. He found in the first round, if he was able to register any impression, that he could not box the wild slugging South American until he had beaten him down and reduced the power and frequency of those terrific right hand swings.

It is doubtful if Dempsey actually figured that fact in his mind. He was all but knocked out by the very first punch of the fight. He started out to box Firpo and got a terrible clout on the jaw. That punch knocked Dempsey clear off his fight. It dazed him and threw him back to instinctive fighting where all he tried to do was slug down the big fighter, who was slugging him down.

It is doubtful that Dempsey actually figured that his boxing would not be effective against blows that were strong enough to break through his guard and it must have been that the first punch reduced him to such a state of desperation that it was the animal in him that pressed him into such a savage method of battle.

Dempsey did outbox Firpo in the second round and he did knock him out by the right kind of fighting tactics, but it must be remembered that the Firpo who came out for the second round was not the wild man who rushed out for the first round and fought as no other heavyweight ever fought in the ring before.

BRAINERD HIGH LOST TO ST. CLOUD

BLUE AND WHITE WAS ENTIRELY OUTCLASSED BY OPPONENTS

(By L. P.)

The Brainerd high school football team met defeat by the strong St. Cloud eleven by a score of 59 to 0.

The Blue and White, though entirely outclassed by its opponents, fought hard throughout the whole game.

Brainerd received on the kick-off, the ball going to DeRoche, who carried it to the fifty-yard line. On four downs Brainerd failed to make her yardage and the ball went over to St. Cloud, her team scoring on a forward pass. The first quarter ended with a score of 17 to 0, in favor of the Saints.

In the second quarter, St. Cloud put in her second team and Brainerd gained ground by this change, although being unable to cross the goal. The second team played very well and with one minute to play in the second quarter, advanced the ball fifty yards. The first half ended without a change in the score.

In the third quarter the Saints put their first team back in the field. Brainerd played a passing game throughout the second half. Time and again one of the locals would

miss the pass and St. Cloud scored heavily. Brainerd, however, showed much stronger work than in the first half. She threw her opponents for losses repeatedly. The third quarter ended with a score of 36 to 0.

The fourth quarter opened with a bang, the locals fighting hard to score. Forward passes were used freely by both teams. St. Cloud was kept on her toes all the time. With five minutes of play left, Brainerd made two successful passes for a yardage of sixty yards. It looked as if the home team would have scored had the quarter lasted a few minutes longer. The game ended with a score of 59 to 0.

St. Cloud Journal Press Game Comment

In its comment on the St. Cloud-Brainerd high schools football game, the St. Cloud Journal Press states in part:

"Interference to the Tech backfield men was perfect on a lot of plays, and was directly responsible for the first touchdown when Rengel intercepted a pass and went down on Brainerd's five-yard line. Schoener carried the ball on the first play and two St. Cloud backs put out three opposing defensive players in perfect style.

"On the defense the Techs lived up to expectations. Time and again Brainerd attempted to storm the forward wall, but without gain. Several short gains came occasionally, but no defense is so good that every play can be stopped behind the line. The line men held their ground like a stone wall and on the offense battered the Brainerd line to pieces for gains.

Make Nine Passes

"Brainerd's end plays were successful for a few yards occasionally, but the Tech tackles and ends, aided by the secondary defense, held them well enough in check that the attack was of no avail.

"Twenty-six passes were attempted by Brainerd and only nine succeeded. The Tech backs grounded them in nice fashion and often tackled and ends broke thru to make pass-

ing almost impossible. "Rengel was a bit off on his throwing early in the game getting his passes too far in advance of the runner. But in the second half he had them placed better.

Brainerd Fight Hard

"Brainerd was far outclassed in football and was outwitted many pounds. A few of the warriors measured fairly well in size aside the Tech team, but the average was low. Molstad is probably the most valuable player on the eleven. He is stationed at right end and is used in many straight plays. He can pass receive and punt. In fact, every backfield man was a passer and they took turns.

"DeRoche, playing tackle aside of Molstad, was strong on the defense and showed a lot of good football. The Brainerd left line was weak."

FARRELL TELLS WHY DEMPSEY SLUGGED

By HENRY L. FARRELL
United Press Sports Editor

New York, Oct. 1.—For years to come, no doubt, the thrilling victory of Jack Dempsey over Luis Firpo in less than two rounds will remain one of the most interesting topics in boxing discussions.

Perhaps it will be related to the next generation how the great Jack Dempsey took the wildest of all chances and went out to out-slug and out-punch one of the hardest hitters of all times.

Dempsey perhaps will be given credit for super-courage in setting aside more effective methods of scientific fighting to prove his greatness by beating a most dangerous opponent at his own game.

Experts are still figuring why Dempsey fought so strangely, so carelessly and so dangerously when the logical thing for him to have done was to box with Firpo and cut him down by the more modern method of scientific hitting. Dempsey went out to slug with Firpo in the first round, and he was mighty near knocked out from under his title. He was floored twice, knocked out of the ring once and beaten all around the ring in the first round. He was hit seven straight times with a right hand and later was landed on fifteen times with swings, without making a counter punch, but nevertheless he floored his opponent seven times.

In the second round he went out and fought as he was expected to fight in the first round. He boxed Firpo, fainted him into knots and knocked him out without having the Argentine touch him with a glove.

For several reasons, Dempsey had to fight the way he did. He found in the first round, if he was able to register any impression, that he could not box the wild slugging South American until he had beaten him down and reduced the power and frequency of those terrific right hand swings.

It is doubtful if Dempsey actually recorded that fact in his mind. He was all but knocked out by the very first punch of the fight. He started out to box Firpo and got a terrible clout on the jaw. That punch knocked Dempsey clear off his fight. It dazed him and threw him back to instinctive fighting where all he tried to do was slug down the big fighter, who was slugging him down.

It is doubtful that Dempsey actually figured that his boxing would not be effective against blows that were strong enough to break through his guard and it must have been that the first punch reduced him to such a state of desperation that it was the animal in him that pressed him into such a savage method of battle.

Dempsey did outbox Firpo in the second round and he did knock him out by the right kind of fighting tactics, but it must be remembered that the Firpo who came out for the second round was not the wild man who rushed out for the first round and fought as no other heavyweight ever fought in the ring before.

BRAINERD HIGH LOST TO ST. CLOUD

BLUE AND WHITE WAS ENTIRELY OUTCLASSED BY OPPONENTS
(By L. P.)

The Brainerd high school football team met defeat by the strong St. Cloud eleven by a score of 56 to 0.

The Blue and White, though entirely outclassed by its opponents, fought hard throughout the whole game.

Brainerd received on the kick-off, the ball going to DeRocher, who carried it to the fifty-yard line. On four downs Brainerd failed to make her yardage and the ball went over to St. Cloud, her team scoring on a forward pass. The first quarter ended with a score of 17 to 0, in favor of the Saints.

In the second quarter, St. Cloud put in her second team and Brainerd gained ground by this change, although being unable to cross the goal. The second team played very well and with one minute to play in the second quarter, advanced the ball fifty yards. The first half ended without a change in the score.

In the third quarter the Saints put their first team back in the field. Brainerd played a passing game throughout the second half. Time and again one of the locals would

miss the pass and St. Cloud scored heavily. Brainerd, however, showed much stronger work than in the first half. She threw her opponents for losses repeatedly. The third quarter ended with a score of 36 to 0.

The fourth quarter opened with a bang, the locals fighting hard to score. Forward passes were used freely by both teams. St. Cloud was kept on her toes all the time. With five minutes of play left, Brainerd made two successful passes for a yardage of sixty yards. It looked as if the home team would have scored had the quarter lasted a few minutes longer. The game ended with a score of 56 to 0.

St. Cloud Journal Press Game Comment

In its comment on the St. Cloud-Brainerd high schools football game, the St. Cloud Journal Press states in part:

"Interference to the Tech backfield men was perfect on a lot of plays, and was directly responsible for the first touchdown when Rengel intercepted a pass and went down on Brainerd's five-yard line. Schoener carried the ball on the first play and two St. Cloud backs put out three opposing defensive players in perfect style.

"On the defense the Techs lived up to expectations. Time and again Brainerd attempted to storm the forward wall, but without gain. Several short gains came occasionally, but no defense is so good that every play can be stopped behind the line. The line men held their ground like a stone wall and on the offense battered the Brainerd line to pieces for gains.

Make Nine Passes

"Brainerd's end plays were successful for a few yards occasionally, but the Tech tackles and ends, aided by the secondary defense, held them well enough in check that the attack was of no avail.

"Twenty-six passes were attempted by Brainerd and only nine succeeded. The Tech backs grounded them in nice fashion and often tackled and ends broke thru to make pass-

ing almost impossible. Rengel was a bit off on his throwing early in the game getting his passes too far in advance of the runner. But in the second half he had them placed better.

Brainerd Fight Hard

"Brainerd was far outclassed in football and was outweighed many pounds. A few of the warriors measured fairly well in size aside the Tech team, but the average was low. Molstad is probably the most valuable player on the eleven. He is stationed at right end and is used in many straight plays. He can pass receive and punt. In fact, every backfield man was a passer and they took turns.

"DeRocher, playing tackle aside of Molstad, was strong on the defense and showed a lot of good football. The Brainerd left line was weak."
